Professional Summary

Full-stack Software Engineer with 5 years of experience building scalable, data-driven products for global users. Currently leading development of a core analytics platform at QS Quacquarelli Symonds, translating complex datasets into actionable insights for institutions worldwide.
Strong in TypeScript-first architectures, cloud services, and end-to-end product ownership.
Proven ability to independently ship and market SaaS products.

Experience

Software Engineer - Development, *QS Quacquarelli Symonds*   04/2024 – Present
- Lead engineer for MyQS, a core product delivering data insights and visual analytics to global academic institutions.
- Own end-to-end feature development across frontend and backend using a T3 stack (TypeScript, Next.js, tRPC, Tailwind, Drizzle).
- Build performant dashboards and reusable UI systems focused on clarity, scalability, and UX.
- Design type-safe APIs and data access layers, ensuring maintainability and developer velocity. Worked with OpenAI apis to generate insights for complex visuals for better user experience.
- Work with AWS (Amplify, Cognito, Lambda, S3) to support authentication, serverless workflows, and deployments.
- Collaborate cross-functionally with product, data, and design teams across geographies.

Founder & Full-Stack Developer, *Cueourcode Technologies*   2024
- Built and launched two complete SaaS products independently, from idea to production. My products - https://cueourcode.com/products ⤴
- Designed frontend, backend, authentication, and deployment pipelines.
- Focused on solving real-world hiring workflows using AI-driven automation.
- Owned product positioning, landing page, and early go-to-market efforts.

Associate Technology L2, *Limitscale Digital*   07/2022 – 03/2024
- Built and shipped full-stack features for secure fintech and banking platforms serving international clients.
- Worked extensively with React, Next.js, TypeScript, Node.js, Express, PostgreSQL.
- Developed reusable component systems with Tailwind CSS, MUI, and Storybook.
- Improved reliability and confidence in releases using Cypress for end-to-end testing.

Assistant System Engineer, *Tata Consultancy Services (TCS)*   05/2021 – 06/2022
- Contributed to frontend development of enterprise web applications using React and Firebase.
- Supported senior engineers with UI implementation and bug fixes.

Education

B.Sc. Electronics and Communication Systems, 2018 – 2021
Sri Krishna College of Arts and Science
CGPA: 7.2

Technical Skills

Languages
TypeScript, JavaScript

Frontend
React, Next.js, Tailwind CSS, Shadcn UI, Flowbite

Backend
Node.js, tRPC, Express, Drizzle ORM, Bun, Hono

Databases
PostgreSQL, MySQL, SQLite, GraphQL

Cloud
AWS (Amplify, Cognito, Lambda, S3), Firebase

Tools
Git/GitHub, Storybook, Snowflake/Datalake, eslint
